

Prima CARGO

The ultra resistant flooring
for outdoor areas

Ready for use in 3/4 days

Prima
PAVIMENTI SPECIALI

Prima Cargo - Asfalto Cemento

Some recovery steps

Prima Cargo is an innovative semi-flexible flooring suitable for all areas used as heavy vehicles parking or transit and **to renew worn yards** subject to continuous and strong stresses. Obtained from the **combination between** the mechanical performance of high strength **cement mortar** and the flexibility of a **bituminous conglomerate** to high porosity, **guarantees better physical-mechanical performance.**

Advantages

- ✓ Up to 4 times more resistant
- ✓ Execution time 3/4 days
- ✓ Easier installation than traditional solutions
- ✓ It requires no joints
- ✓ It allows smaller thicknesses
- ✓ It resists peak loads and wear
- ✓ More durability and resistance to hydrocarbons, to chemical agents
- ✓ More resistance to high temperatures than asphalt
- ✓ It reduces maintenance costs
- ✓ Also resistant to freeze-thaw cycles

Where

Heavy logistics

- ✓ Interports
- ✓ Yards and airport cargo areas
- ✓ Container storage yards
- ✓ Harbor docks
- ✓ Storage yards for steel mills
- ✓ Airport parking
- ✓ Parking for special heavy vehicles

Light logistics

- ✓ Company yards
- ✓ Freight forwarders yards
- ✓ Parking for trucks and exceptional transport

Mass Retail Channel logistics

- ✓ Loading / unloading areas
- ✓ Shopping malls parking
